■ PROFILE

AI web engineer and founder of A&N Web Services, a founder-led studio in Kaithal building custom-coded websites, SEO/AEO/GEO and AI automation (5.0★ across 29 Google reviews). Creator of DigitalKawach, an AI scam-protection app. Four years teaching AI, cyber security, programming and IoT — 2,000+ students mentored and 50+ workshops at schools, colleges, ITIs and polytechnics across Haryana. Invited speaker on AI and cyber security at state and CBSE level.

■ EXPERIENCE

Founder & Lead Developer

Jan 2026 – Present

[A&N Web Services · Kaithal](#)

- Design, code and deliver every client project: custom websites, databases and secure admin dashboards.
- Built and published DigitalKawach.ai, an AI scam-detection and digital-protection app.
- Ship chatbots, voice assistants and workflow automation; run technical SEO, AEO/GEO and Google Ads growth.

AI Instructor

Jul 2024 – Present

[Zed-King Group of Institutions · Kaithal](#)

- Lead generative AI and prompt engineering sessions (ChatGPT, Claude, Copilot, Gemini); designed an AI curriculum for technical and non-technical learners.
- Built the institute's autonomous multi-agent SEO publishing system (6 articles/day, zero hosting cost).

Digital & Social Media Manager

Jan 2023 – Present

[Zed-King Group of Institutions · Kaithal](#)

- Grew the institute's organic social audience to 12,000+ targeted followers with AI-assisted content and analytics.

Programming & IoT Instructor

Jul 2022 – Present

[Zed-King Group of Institutions · Kaithal](#)

- Mentored 2,000+ students in Python, C, C++, HTML, CSS, JavaScript and cyber security fundamentals.
- Led Arduino builds: smart home, smart city, radar, automated waste management and voice-control systems.
- Government-selected trainer for one-week Python & AI bootcamps at six Kendriya Vidyalayas under PM SHRI (2024–25).

■ SELECTED PROJECTS

DigitalKawach.ai — AI scam protection for SMS, calls, links, WhatsApp and email. Rule engine → LLM reasoning (Groq) → VirusTotal URL reputation; Flask API with rate limiting and Gmail OAuth. digitalkawach.com

Multi-Agent SEO Engine — Serverless pipeline on GitHub Actions: SerpApi research → LLaMA 3.3 70B writing → Pexels images → Blogger/Dev.to/WordPress publishing.

EduTrack — Flask student performance analyzer with GPA, targets, PDF reports, admin analytics and an AI tutor. maffi.pythonanywhere.com

Client websites — Sun Rise Sr. Sec. School (CBSE) website; Zed-King Fire & Safety search growth; Haryana Student Career Guide (bilingual, open source).
