

Maffi Devi

FULL-STACK DEVELOPER & AI CONSULTANT

Phone: +91 8570053583 | **Email:** bhallmaffi@gmail.com | **LinkedIn:** linkedin.com/in/Maffi-Devi
Address: V.P.O Manas, Kaithal, Haryana - 136027 | **Portfolios:** anwebservice.com • digitalkawach.com

Language Proficiency: PTE Academic – 84 Overall (Superior English Communication Skills / IELTS Band 8.0+ Equivalent)

PROFESSIONAL SUMMARY

Highly analytical Full-Stack Developer and AI Consultant specializing in building production-grade web applications, embedded IoT solutions, and secure digital tools. Founder of **A&N Web Services**, delivering custom-coded software to business clients. Architect of **Digital Kawach**, a privacy-first, on-device AI security Android platform. Combines technical capability across Python and JavaScript ecosystems with strong pedagogical and project management leadership. Validated with exceptional English proficiency to seamlessly adapt to international enterprise standards.

TECHNICAL EXPERTISE

Core Languages	JavaScript (ES6+), Python, C, C++, HTML5, CSS3
AI & Mobile Development	Generative AI Architectures, Prompt Engineering, Android System Architecture, On-Device Threat Processing
IoT Environments	Arduino IDE, PlatformIO, Microcontrollers, Smart System Prototyping
Tools & Infrastructure	UI/UX Layout Design, Search Engine Optimization (SEO), Git, Visual Studio Code, PyCharm

PROFESSIONAL EXPERIENCE

Founder & Lead Full-Stack Developer	April 2026 – Present
A&N Web Services (Digital Solutions Agency)	
- Engineered and deployed custom-coded business applications using native JavaScript, HTML5, and CSS3, maximizing response speeds and cross-device performance. - Managed the complete technical pipeline for clients, establishing production deployments, data capturing frameworks, and specialized SEO structures.	

AI & IoT Technical Instructor / Digital Manager

July 2022 – Present

Zed-King Group of Institutions

- Instructs hands-on educational curricula on Generative AI capabilities, prompt workflows, and system optimization using advanced LLM applications (ChatGPT, Claude, Copilot).
- Teaches core web development frameworks and micro-controller programming to students, driving industrial prototype designs from layout to execution.
- Directs institutional online expansion, optimizing growth to 12,000+ targeted organic social media followers.

SELECTED ENGINEERING PROJECTS

Digital Kawach — On-Device AI Security Platform

Live Execution

Mobile Application Production

- Developed a local, privacy-first Android application designed to scan, parse, and block real-time phishing hyperlinks, fraud communication, and active network scams.
- Structured a zero-external-storage processing paradigm ensuring data privacy regulations and security policies are executed completely within the local ecosystem.

EDUCATION

Master of Computer Applications (MCA)

Expected 2027

Kurukshetra University, Haryana, India

Bachelor of Arts (Specialization in Mathematics)

Graduated 2022

Indira Gandhi Mahila Mahavidyalaya, Kurukshetra University | Grade: 84.7%

CERTIFICATIONS

- **O-Level National IT Certification** – NIELIT | Grade Architecture Score: 78.8%
- **Advanced Machine Learning, AI & IoT Deployment** – Trainer of Trainers (ToT), NIELIT Kurukshetra
- **Cyber Security & Ethical Hacking Frameworks** – National Workshop, IIT Delhi
